

**INVADER HUB for
63-66 Star Hub Wheel**

I'll machine this off stock axle sleeve, and that should be all that's required for any of the year groupings (36-57, 58-62, 63-66)

Same as stock: centerline to Drum flange.

1.348"

Same distance as stock. From outside of sealed bearing on new wheel, as outside of "inner sleeve" on stock wheel

2.628"

Same distance as stock. From outside of sealed bearing on new wheel, as outside of "thrust bearing sleeve" on stock wheel

2.162"

Rim Center Line

4.730"
